Subject: WTR Managers Meeting and Canceling WTR-3-4 Section Meeting

Hi Everyone.

Nonresponsive

Highlights from the WTR Managers Meeting:

- Staff and managers have been working to respond to information requests regarding the Gold King Mine spill. In particular we were looking for water quality data along the San Juan River. The NPDES Permits Section has data collected from monitoring stations along the San Juan River from 2008-2014. No further action is required by WTR-3-4 at this time, but other requests may be coming.
